

LINDBERG/MPH

1200°C Box Furnace

Temperature uniformity and fast heat-up, and recovery and cool-down rates are excellent benefits of our 1200°C Box Furnace. It has a dense load capability and the spring-loaded door assures secure closure.

Features

- Double shell construction
- Individual heating elements at chamber top, bottom, and sides
- Moldatherm® ceramic fiber insulation
- High temperature insulation in vestibule plug door
- Heating element embedded Moldatherm® pads

Options

- Built-In Temperature Control Console
 - Provides additional features and versatility for your control system
- Programmable temperature control (Option P)
 - Offers flexibility of ramping to multiple setpoint levels and holding for variable time periods at those levels
 - Provides up to four 16-programmable segments or one 64 segment program
- Excess temperature protection (Option B)
 - Provides positive protection of both furnace and load in the event of failure in the primary control circuit

- Refractory plate heating unit for Model BF51442C
- Plantinel® II thermocouple with 10 compensated lead wire and polarized plug
- Temperature - 1200°C (2192°F) Maximum
- Chamber Sizes - 551.25 Cubic Inches - 28.24 Cubic Feet

- Ethernet communications available
- Atmosphere Retorts
 - Available for all Lindberg/MPH 1200°C box furnaces when controlled atmosphere processing is required
 - Atmosphere Control Consoles
