

1500°C Multi-Purpose Box Furnace

The 1500°C Multi-Purpose Box Furnace maintains temperature uniformity, has a rapid response rate and boasts a dense load capability. It's energy efficient to meet today's workplace requirements.

Features

- Side swing or vertical lift doors
- Silicon carbide heating elements
- High-temperature graded Moldatherm® insulation
- Fitted hearthplate
- Double-wall construction
- Temperature - 1500°C (2732°F) Maximum
- Chamber Sizes - 360 Cubic Inches - 1534.5 Cubic Inches

Options

- Ethernet communications available
